

# PLAN ALBANIA

(Location Bushat)

37°91'28,84 E

46°48'56,48 N

## General Scenario

The Municipality of Vau Deja is part of the Shkodra Region, with a distance of 20 km from Shkodra, 92 km from Tirana and 81 km from Rinas Airport. It has an area of 468 km where 10 465 ha are agricultural land.

The Municipality of Vau Dejës is bordered on the north and west by the Municipality of Shkodra, on the east by the Municipality of Fushë-Arrëz and on the south by the Municipalities of Puka and Lezha.

It consists of 6 administrative units with a population of 50,130 inhabitants, namely: Vau Dejës with 13,035 inhabitants, Bushat with 24,200 inhabitants, Vig-Mnelë with 2,177 inhabitants, Hajmel with 6,300 inhabitants, Temal with 2,520 inhabitants and Shllak with 1 899 inhabitants.

With the new administrative division in 2015, the Municipality has under its administration the city of Vau Deja and 47 villages.

The main economic activity is based on agriculture and livestock, small business and services.

The Municipality of Vau Dejës also has a development in the energy production sector, with the hydropower plant of Vau i Dejës, Koman, with HPPs Ashta 1 and Ashta 2.

In the Municipality of Vau Dejës is located the regional landfill of Bushat, as a point of waste collection and processing for the Shkodra-Lezha region.

The Fire Department covers all the above mentioned areas, administrative units and population.

The summer season is extremely problematic in terms of fire cases. But this year, unlike a year ago, the situation seems calmer.

Of course, the small number of cases of fires in Vau Dejes were also affected by temperatures that were not high until this period, with the exception of a few days.

The weather situation has caused open fires in the area. There have been 15 fires in the last month. The commitment of all surrounding municipalities is maximum but difficult conditions lead to team exhaustion and failure of firefighting equipment.

Due to the difficult conditions of the vehicles and the proper monitoring of the fire protection sector, the situation is constantly endangered.

In the field we have a Fire Service and Inspector who manages the fire activity and analyzes the damages and causes.

Our department also provides assistance from neighboring municipalities such as Shkodra, Puka, Lezha. Assistance consists in extinguishing fires in large areas with their fire engines, as well as a medical team of the Red Cross in Vau Dejes.

**Task:**

Assess the situation on the ground and prepare a plan of action and priority rescue operations.

**Reporting:**

Upon arrival at the location and based on the assessment of the situation, we report on the service activity that we will perform, for any security incident or any other unexpected event as well as for the required support.

**Venue:**

Fire escalation site in Bushat village. Ndre Mjeda School Student Dormitory. **Injuries:**

**It is necessary to protect the school dormitory building because it is endangered.**

**Urgent evacuation of all students accommodated in the school dormitory building is needed.**

**Through social networks, a considerable number of volunteers were invited to help put out the fire, but who provide their assistance in an organized manner but without personal protective equipment and firefighting training.**

**Expected activities:**

**Firefighter and 50 students evacuated.**

**It is necessary to provide water for water filling and supply of fire engines.**

**Establish public order security procedures and lasting peace due to voluntary dissatisfaction.**

**Medical care for the injured and evacuation and accommodation of the Red Cross of Vau Dejes.**

**Institutions and Services:**

**Fire Protection Service Vau Dejës Municipality.**
